Wordly

Know Before You Go Email

About this document

Help your attendees arrive ready to use live translation and captions. Copy the section below into the reminder email you send before your event so attendees know what is available and what to bring. Include the graphic below to show attendees how to join.

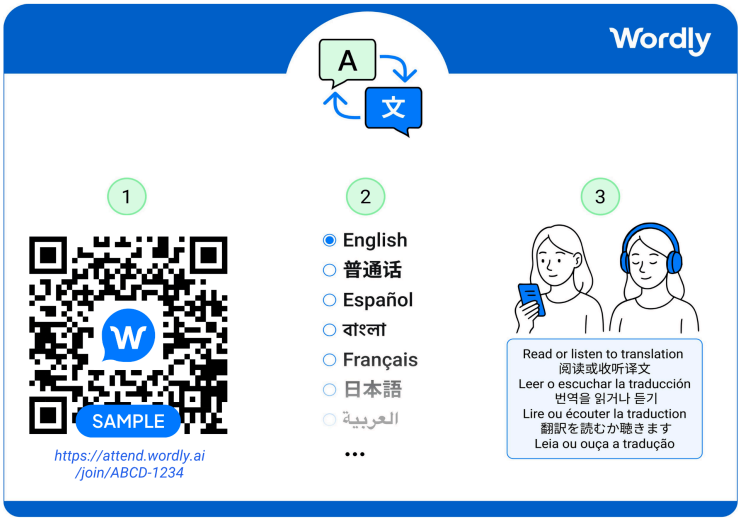

For best results, send your email 2-3 days before the event, while attendees are making their plans.

Email

Live Translation and Captions Available

We're excited to offer live AI translation and captions at our sessions, powered by Wordly. Bring your phone, tablet, or computer to use Wordly during the event.

Each session will have a QR code and website link so you can join quickly and choose from dozens of languages. Remember to bring headphones so you can listen to translated audio in addition to reading live captions.

Here's how to join Wordly at each session
